## Code-Listing 1: Beamer Options

```

1 % if you want a navigation titlebar, set the titlenavigation option
2 \documentclass[titlenavigation]{beamer}
3 % to disable the navigation symbols, set the nonnaviationsymbols option
4 \documentclass[nonnaviationsymbols]{beamer}
5 % navigation symbols, but no titlenavigation
6 \documentclass{beamer}

```

**titlenavigation** Set this option to enable the title navigation bar

**compress** Makes only sense when *titlenavigation* is used.

Set this option to align the dots in the title navigation bar horizontally instead of vertically

**nonnaviationsymbols** Set this option to disable the navigation symbols

## Code-Listing 2: Latex hints

```
1 % removes the header and footer, useful for the titlepage  
2 \thispagestyle{empty}
```

The quick brown fox jumps over the lazy dog! The quick brown fox jumps over the lazy dog! The quick brown fox jumps over the lazy dog! The quick brown fox jumps over the lazy dog! The quick brown fox jumps over the lazy dog! The quick brown fox jumps over the lazy dog! The quick brown fox jumps over the lazy dog! The quick brown fox jumps over the lazy dog! The quick brown fox jumps over the lazy dog! The quick brown fox jumps over the lazy dog!

If you press here, you will jump to the frame labeled intro.  
Similarly, pressing [here](#) will take you to that same frame.

## Definition

A triangle that has a right angle is called a *right triangle*.

## Theorem

*In a right triangle, the square of hypotenuse equals the sum of squares of two other sides.*

## Proof.

We leave the proof as an exercise to our astute reader. We also suggest that the reader generalize the proof to non-Euclidean geometries. □

The line you are reading goes all the way across the slide. From the left margin to the right margin. Now we are going to split the slide into two columns.

Here is the first column. We put an itemized list in it.

- This is an item
- This is another item
- Yet another item

Here is the second column. We will put a picture in it.

The line you are reading goes all the way across the slide. From the left margin to the right margin.
